Step 3

Choose your backrest

Select your backrest

Choose between horizontal or vertical push handles, useful when space is restricted or against a WC cistern.

Horizontal push handles

Vertical push handles

Please note: All AUTO chairs come with pram handles as standard

Step 4

Choose your armrests

Standard

Gives 370mm of clear width on a standard 'C' (440mm) frame.

Half wide

Provide 50mm extra width

Wide

Provide 100mm extra width

* Measurements are taken between armrests across the narrowest point.

Step 5

Choose your footrests

Standard footrests

Adjust from the floor to 195mm

Raised footrests

60/90/120mm from standard

Heavy duty footrests

Step 6

Choose the transportability

Many Freeway shower chairs are available as a transportable option. This means the frame can be easily dismantled without tools and is perfect for easy storage or transport.

For example: T40 Assembled

T40 Disassembled

(frame only)

The T50 does not have a transportable option. Please speak to your local representative for a complete list of shower chairs with this option.

Transportable option?

- Yes
- No

Step 7

Choose your accessories

A range of accessories is available. Please add the accessories you want here.

Your Freeway Shower Chair is complete!

Please pass your completed form to your local representative or call customer services.
